## NEWS LETTER

### DECEMBER 2020

HEART TO HEART

Dear Parents

As we plan ahead for an end to a session like no other we have seen in the past, our focus will still be to ensure that:

**Every child**, every day is finding a way to feel connected,

**Every child**, every day is being challenged by new learning and experiences, and

**Every child**, every day knows they have a champion they can turn to.

2020 has challenged staff and students to find a new normal for learning, connected us in new ways and required our champions to champion from afar. We recognize the challenges that the COVID-19 pandemic brings to students and families. Parents, we know you are on triple duty—working, parenting and teaching at home—all the while striving to keep your household healthy, fed and mentally balanced. The safety and health of our students remain our top priority. DMA is committed to providing a safe and healthy environment for our students,

staff, and their families. To ensure this commitment is met, we have developed and will continue to revise the COVID-19 Student and Family Guidelines in response to the ever-changing COVID-19 pandemic. These guidelines include expectations around social distancing, face coverings, health screening, and what happens when a positive or suspected case of COVID-19 is reported by a student, employee, or visitor.

We look forward to your unstinting support as we gear up for the Pre Board examinations scheduled in this month for classes X and XII. Pre-board exams are essential to enable students identify their weak areas, work on their mode of preparation, understand the pattern, and work on their writing speed and the approach towards preparation. Kindly ensure that your ward appears for these exams.

## Poem - THERE WAS A GIRL

There was a girl,  
who was like a pearl.  
Her eyes were bright,  
and shines at night.  
Her hairs were long and straight,  
And has long and silky nails.  
I met her at a club,  
She was sitting with a mug.  
I asked her for dinner,  
"OK," she answered very sooner.  
That was the best night ever,  
That will come never...

### The World

The world outside is a wondrous place,  
Filled with many miracles to see.  
It's a place to hear and smell and feel.  
It's a place so unfettered and free.

From the welcome warmth of the morning sun,  
As it plays upon your eyes,  
Enticing you from your slumber  
To awaken and come alive.

Or the gentle touch of an Autumn breeze,  
As it chills and caresses your face,  
Beckoning you to start your day  
And let go of the night's embrace.

### Poems Corner

The sound of the birds as they twitter and sing,  
Still nestled in the warmth of the trees.  
Soon they will lift their wings in flight,  
Shooed away by the fluttering leaves.

To smell that earthy, Autumn air,  
As you step outside and breathe.  
To hear that steady, familiar crunch,  
As you wade through the dried, dead leaves.

To look up and get lost in a ceiling-less sky,  
Deep blue or an ominous grey.  
Squinting against the brightest of suns,  
Or getting soaked by a sudden, cold rain

# LIFE SKILLS: LIFE IN SPACE

In this modern world space, universe, stars and planets are not apart from our lives. It is always the tendency of humans to try to discover the outside of our earth. To some extent they have succeeded by going to the moon and by sending aircraft to different planets to study them. To go to space was not an easy task because space is totally different from earth's environment. There we need air to breathe, water to drink, food to eat and above all we need a special type of aircraft to go there. So, Today we will get to know together about how an astronaut survives in space.
